

Washington Pilots in Support of the Blaine Airport

Dear Blaine City Council,

I support the Blaine Airport 4W6 and ask that you take the necessary action to maintain it's status as a vital link in our nation's transportation system.

I also ask that you please approve the Master Airport Expansion Plan currently before you.

Sincerely,

April D Phillips

Comments: Blaine Airport is a necessity for pilots.
This summer I was stranded because of construction
@ Bellingham International, and was unable to land
there. Blaine was our alternate airport since it
has heat and enclosure and it allowed us shelter until
we could go home. Without Blaine's airport, I don't
know what I would have done!
