22 March 2006

TO : City of Blaine, T. Galvin, Blaine City Council**FAX 332-8330****RE : Response to the March 21st, 2006 visit**

Will be sending
We are enclosing the comments by our current engineer and landscape designer as it relates to dealing with the City. Obviously you are still angry that we have appealed the stop-work order, after our initial plans were submitted in October through December of 2004? This means that you are reviewing plans for the THIRD TIME!

1. We duly met with the parties at 2:00 P.M. on the 21st of March;
2. We will attend a pre-construction meeting today;
3. We have brought the ADA section to our engineer and will apply it to our construction on Peace Portal Drive;
4. We have applied for Excavation permits in June and July 2005, and again this past week;
5. We will obtain Obstruction permits if needed;
6. We are fully responsible for any errors made by engineers in our behalf; including any layered levels of utilities which may conflict with each other.

We are pouring concrete today for curbs, parking and beginning any improvements approved by Public Works Dept. We are also starting landscape work; if there are changes necessary we will make them.

Mr. Galvin is objecting to our proceeding; we ask him to take appropriate action today: We object to the 10' setback as it relates to zones other than residential (Seascape is in the RO Zone); so we wish to appeal this mandate to the City Council or Hearing Examiner, as well as other unlawful restrictions mandated in Mr. Galvin's March 21st letter.

Sincerely,
Joel Douglas**Harbor Lands Co.**
