**RE : *The decision you are about to make . . .***

*Are the Hearing Examiner findings true or are they influenced by the fact that he was dozing off during the hearings and receives a pay-check from the City as a managerial fringe ?*

The review will test the integrity of each member of Blaine City Council. If you find that the City staff has made serious errors, we hope that you honor the truth--that's the important thing. . .

*Otherwise, Why would you be reviewing it. . . ?*

Mr. Galvin has attempted to influence the Council in his Email of November 12th, 2005—*Against Joel Douglas !*  
This allowed you to possibly believe his actions were correct during the next four (4) months !
