ANALYSIS/SUMMARY: The stormwater system serving a portion of Semiahmoo is undersized to handle winter flows resulting in overtopping of Semiahmoo Parkway and Drayton Harbor Road. This area has been analyzed by an engineer under contract with the City and several upgrades are required which will be budgeted in 2007. One part of the upgrade required is to the private stormwater system along Mallard and Pintail Loops owned and maintained by the Semiahmoo Resort Association (SRA). This section is downstream of ditches along Drayton Harbor Rd which overflow in the winter. City staff met with the SRA Board on two occasions to describe the problem and present the proposed solution and the estimated cost of the repairs, \$70,000. This work must be performed concurrent or in advance of planned City repairs along Drayton Harbor Road or the City repairs could result in problems occurring in that downstream private stormwater section. These repairs can be completed separately or under contract with the City. The SRA has asked that a formal request be made with Council approval.

RECOMMENDATION: ☒ Waive 2nd Reading: (Include conditions of approval if applicable)
Staff recommends that City Council authorize the City Manager to send a letter to the Semiahmoo Resort Association formally requesting that they budget \$70,000 for the repairs in 2007.

FISCAL ANALYSIS: No direct fiscal impact per se.
